Mr. Gilbert Roman

Apartment 4
Ridgefield Park, NJ 07660

Reference: F-2011-02167

Dear Mr. Roman:

This is a final response to your 30 August 2011 Freedom of Information Act (FOIA) request received in the office of the Information and Privacy Coordinator on 7 September 2011, for:

1. **All files and/or reports on the (Arch of the Covenant).**
 - 1a. **Ancient Israeli Priest communicating with God.**
 2. **Major David Morehouse experiences with the Arch of the Covenant.**
 3. **Major David Morehouse experiences with angels or persons dressed in white.**
 4. **Other military or non-military reports of angels and persons dressed in white.**

We have assigned your request the reference number above. Please use this number when corresponding so that we can identify it easily.

Regarding Items 1, 1a, and 2-4, the FOIA requires requesters to "reasonably describe" the information they seek so that professional employees familiar with the subject matter can locate responsive information with a reasonable amount of effort. Because of the breadth and lack of specificity of your request, and the way in which our records systems are configured, the Agency cannot conduct a reasonable search for information responsive to your request.

Regarding any portion of your request on the subjects of remote viewers program and the Star Gate Collection, as you may know, **Project Star Gate** was one specific, rather short-lived, program that dealt with research into the parapsychological phenomenon known as remote viewing. During recent years, however, we have come to use "Star Gate" as a rubric for a series of CIA and U.S. military remote viewing research projects. The individual projects are now defunct, and today CIA does not fund remote viewing research.

Pursuant to a 1995 Congressional mandate, CIA collected the CIA and Department of Defense records concerned with parapsychological phenomena, mainly "remote viewing," and began a program of review with the intention of declassifying as many of these documents as possible. These records, now referred to as the Star Gate Collection, include all releasable information on the related projects and terms STAR GATE, GRILL FLAME, CENTER LANE, SUN STREAK, STUNT PILOT, PHOENIX, and SCANATE.

The public now has access to the documents in the Star Gate Collection by two means. The first is the collection housed at the National Archives and Records Administration (NARA), using the CIA Records Search Tool (CREST) system. For information on obtaining access to CREST, please contact NARA at the following address:

Ms. Martha Wagner Murphy, Chief
Special Access/FOIA Staff
Room 6350
The National Archives at College Park
8601 Adelphi Road
College Park, MD 20740-6001

Secondly, the Star Gate Collection is available for purchase on a set of 14 CDs. If you would like to purchase your own copy of the Star Gate Collection, send your check or money order for **U.S. \$140**, made payable to the **Treasurer of the United States**, to:

Information and Privacy Coordinator
Central Intelligence Agency
Washington, D.C. 20505

Please cite reference number F-2011-02167 to ensure proper credit to your account.

Regarding information or records pertaining to David Morehouse himself, we need as much identifying information as possible before we can effectively search our files for information on an individual. Please provide us with your subject's full name, date and place of birth, and citizenship status. Without this data, we may be unable to distinguish between individuals with the same or similar names. If the person is deceased, please provide some evidence of death, such as a death certificate, an obituary, or press statement.

Agency regulations encourage requesters seeking information on third parties to provide a signed affidavit or declaration from the third parties waiving all or some of their privacy rights. We can search without this authorization, but if we locate responsive records, privacy concerns may require us to protect the information from release.

FOIA exemption (b)(6), a copy of which I have enclosed for your reference and retention, requires us to protect information "the disclosure of which would constitute a clearly unwarranted invasion of personal privacy." In reaching this determination, we use the test our enclosed regulations outline at 32 CFR § 1900.32(b): "the Agency will balance the privacy interests that would be compromised by disclosure against the public interest in release of the requested information." Therefore, the waiver will assist us with this determination.

Sincerely,

A handwritten signature in black ink, appearing to read 'Susan Viscuso', with a long, sweeping horizontal line extending to the right.

Dr. David Morehouse

Dr. DAVID MOREHOUSE has had an extremely diverse life, which in the words of his superiors, essentially began with a notable military career. He held a Regular Army commission in the United States Infantry and is a Distinguished Military Graduate, and a Dr. Ralph D. Mershon Award winner, designating him as the top cadet commissioned into the Regular Army in 1979, amongst 2,800 other potential candidates.

During his tours of duty, Major Morehouse served in many staff and command positions ranging from Airborne rifle Company Commander to Commander of an elite Airborne Ranger Company—he commanded for over four years while the majority of his peers commanded only eighteen months. He was Aide de Camp to two army generals, the Battalion Executive Officer (second in command) of the 680 men of the 2nd Battalion, 505th Parachute Infantry Regiment, as well as being the Chief of Training for the 13,500 men and women of the 82nd Airborne Division.

From 1987 to 1991, Dr. David Morehouse was assigned to several highly classified special access programs in the US Army's Intelligence Security Command and the Defense Intelligence Agency's Directorate of Science and Technology as a top secret Psychic Spy, a Remote Viewer. An Army Ranger, Master Parachutist, Pathfinder, Scuba Diver and Special Operations Soldier, his distinctive military skills place him in a select group of army officers. He holds a Master of Military Art and Science Degree, a Masters degree in Administration, and a Doctorate in Education. The recipient of numerous military awards and decorations, his last assignment was to have been with the Chief of Staff of the Army's elite "Study Group" as the non-lethal weapons expert.

Despite being designated by his superiors as "Destined to wear stars," he resigned his commission in 1995 after his decision to write *Psychic Warrior* resulted in unfounded charges being filed against him—his resignation ended eighteen years of exemplary and honorable military service. *David Morehouse* later challenged the allegations made against him in 1993, and was successful in having his discharge upgraded to fully honorable, after proving to the Army discharge review board, a panel of five Colonels, that the allegations against him were baseless, without merit, and devoid of credible evidence.

In the years since he resigned, Dr. Morehouse has written four books: *Psychic Warrior: Inside the CIA's STARGATE Program*, *Nonlethal Weapons: War Without Death*, *Remote Viewing: The Complete Handbook for Coordinate Remote Viewing*, and *The Deceivers*, his first work of fiction. The latter—*The Deceivers*—was purchased by Paramount Pictures as a feature film with Mace Neufeld producing and Simon West directing. *Psychic Warrior* is an international bestseller published in 14 languages. Universal Pictures is presently developing a feature film based on David's life story, as recounted in *Psychic Warrior*, to be titled *Comes the Watcher*. *Nonlethal Weapons: War Without Death*, is considered an academic work and has met with much critical acclaim in the world of strategic planners. *Remote Viewing: The Complete Handbook for Coordinate Remote Viewing* is the most comprehensive how to book available on remote viewing.

Dr. Morehouse has twice lectured at the Mikhail Gorbachev Foundation's State of the World Forum on issues concerning global peace and alternative methods of conflict resolution. In 1999, a committee of scientists and educators from the United States and Europe nominated him for the Nobel Prize in the category of "Alternative Sciences." More recently Dr. Morehouse has been a guest lecturer at Stanford University's MBA Creativity in Business course, and at Deepak Chopra's Alliance for a New Humanity in Puerto Rico.

Dr. Morehouse formed Remote Viewing Technologies in 1997, a company initially designed to train police officers in the art and science of Remote Viewing. In early 1998, Dr. Morehouse began training civilians in the exact military protocols and standards to which he was trained in the Remote Viewing unit, circa 1987 to 1990. To date, well over 15,000 students have been trained in the United States, Europe and other far-reaching parts of the globe.

Dr. Morehouse's Remote Viewing students find their way to him from a diverse range of backgrounds. He lectures and educates across the spectrum of human interests. His students include (but are not limited to) medical doctors, researchers in science, medicine and technology, engineers, homemakers, physicists, students, artists, and alternative practitioners.

His teachings and writings have been especially appreciated in Europe where his reputation and his evolving humanistic philosophies have earned him countless accolades in the European Press where he is routinely described as "one of Europe's leading new metaphysicians."
